

RF200 Professional Series

# Cordless **GyroRemote & Mobile Keyboard**

*Ultimate Freedom Through Wireless RF Control*

**GyroPoint™**  
Motion-Sensing Technology

- Roam up to 100 feet or more with No Line-of-Sight to your computer!
- Effortless cursor control with patented GyroPoint Motion-Sensing Technology
- Hot Keys for Internet, Multimedia and Windows application control

# Cordless GyroRemote & Mobile Keyboard

## Ultimate Freedom Through Wireless RF Control

*Gyration's revolutionary wireless peripherals give you the freedom to distance yourself from your computer without sacrificing precise and reliable control. The magic is provided by our patented GyroPoint Technology™, a solid-state inertial sensor that translates your natural hand motions into cursor movement.*

### System Requirements:

- Full functionality on IBM compatible PCs & Windows 2000, ME, XP or higher
- Limited functionality on MAC OS 8.0 and higher and Windows 98\*
- Available USB port
- CD ROM drive (for GyroTools installation)
- Microsoft or Mac compatible mouse driver

### ● Cordless GyroRemote™

- Solid-state, motion-sensing gyroscope provides reliable, effortless in-air cursor control
- 100-ft RF range with no line-of-sight limitations allows you to confidently roam around a room and interact with your audience
- Conveniently placed hot buttons put your favorite presentation tools at your fingertips
- Ergonomic design reduces fatigue and discomfort
- Eight channels and 65,000 unique addresses provide transmission security
- Control your presentation with subtle, non-distracting wrist movements
- Includes GyroTools presentation effects software for Microsoft Windows

### ● Cordless Mobile Keyboard

- 88-keys, including Windows Start and right-menu keys
- 15 Internet and Multimedia hot keys
- 100-ft RF range with no line-of-sight limitations allows you to confidently relocate anywhere in the room
- Eight channels and 65,000 unique addresses provide transmission security
- Lightweight and rugged construction designed for portability
- Snap-on keyboard cover included to protect keys during transportation

### ● Gyration RF™ Receiver

- Internationally certified USB connection with 5' cable
- Recognizes up to eight remotes/keyboards on one system
- Allows two remotes/keyboards to be used simultaneously
- Small, lightweight design packs easy for travel
- Powered by USB port -- no AC power adaptor required

### ● GyroTools™ Special Effects Software for Windows

Bring your presentation to life with over 75 powerful special effects and presentation management tools. Assign your favorite tools to buttons on your remote for easy access. Presentation tools include:

Draw and highlight directly in Slide Show mode

Add special effects to your presentation on-the-fly

Control sound and multimedia with the click of a button

Assign Internet hot keys to your remote to ease web surfing

Windows and Application Shortcuts make OS control easy

Make your point with laser and clipart pointers
